Attachments: 000075_STEP3_TOWARDS_COVID_SAFE_AUSTRALIA_V8.pdf; 000075_STEP1_TOWARDS_COVID_SAFE_AUSTRALIA_V9.pdf; 000075_STEP2_TOWARDS_COVID_SAFE_AUSTRALIA_V9.pdf; 000075_3_STEP_FRAMEWORK_FOR_COVID_SAFE_AUSTRALIA_V7.pdf

CAUTION: This email originated from outside of the ACT Government. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Good afternoon members.

Please find attached the 3 steps towards a COVIDSafe Australia for your information only. Brendan will provide some background information for these items at today's AHPPC meeting.

These were developed to be published following National Cabinet, but National Cabinet decided to only publish the 'plan on a page' version (3 step framework - attached) as it was agreed that further detail would be provided by jurisdictions.

Kind regards

Harrison Thornton

[Confidential Draft - Club Reopening Guidelines.docx](#)

CAUTION: This email originated from outside of the ACT Government. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Good Evening Dr Coleman

My name is Gwyn Rees, I am the Chief Executive of ClubsACT.

Attached to this email, is a draft document which proposes arrangements under which ACT clubs might operate safely and efficiently within the framework of the Government's evolving COVID-19 restrictions.

The objective would be to enable Clubs to return to profitable business before many are forced into liquidation, to return Club staff to paid employment, and to provide the ACT community with at least some of the recreational benefits they have long enjoyed in the ACT. The last objective cannot be stated too strongly, as concerns are raised for the emotional well-being of residents from the impact of social isolation.

I am proposing that the ACT Clubs industry should reopen with increased patron capacity, above that proposed under the current stage one guidelines. I would be delighted to hear from you about any framework you believe may assist larger hospitality venues to reopen, in addition to receiving any feedback related to the attached plan.

Finally, I would like to invite you to do a walk through of one or two clubs in the ACT to discuss with you the elements contained in the attached document, demonstrate how physical distancing can be enforced in our venues and to answer any questions you may have.

I look forward to hearing from you in the coming week.

Kind regards

GWYN REES Chief Executive

are necessary.

In addition to the attached protocols, Tabcorp would also like to point out that the risks of spreading COVID-19 in a TAB Agency are low compared to other venues which are currently permitted to open. This is because customers do not generally gather or socialise in a TAB Agency, there is usually no more than ten persons present at any one time, and food and drink is not served. Also, the average TAB Agency is over 150m², and the estimated 'front of house' customer area has a safe social distancing capacity for over 30 persons (e.g. 1 person per 4m²) – in fact all Tabcorp's TAB agencies can safely accommodate over ten persons.

As you may be aware, the NSW Government issued an exemption to the NSW Health Order on Thursday last week to allow TAB agencies to immediately reopen with the appropriate safety plans in place (the exemption is attached for your information).

Please do not hesitate to contact me on [REDACTED] should you have any questions.

Many thanks, Emma

Also, the average TAB Agency is over 150m², and the estimated 'front of house' customer area has a safe social distancing capacity for over 30 persons (e.g. 1 person per 4m²) – in fact all Tabcorp's TAB agencies can safely accommodate over ten persons.

Should you have any queries or require further information please contact:

Tom Callachor

General Manager – Government & Industry Affairs

Charles Moon

Manager – Government & Industry Affairs

TAB Agencies

TAB Agencies are businesses with transient customers – similar to a newsagent, post office and many other retail consumer shops. They are mostly independent small businesses that are operated by locals who employ locals – Tabcorp usually does not operate the TAB Agency.

When pubs and clubs were forced to close as a result of the COVID-19 restrictions, TAB Agencies remained open for almost another week. This was owing to a number of factors including that customers do not generally gather in a TAB Agency, there is rarely more than ten persons at any one time present, food and drink is not served and strict public health and hygiene protocols were put in place.

The average TAB Agency is over 150m², and the estimated 'front of house' customer area has a safe social distancing capacity for over 30 persons (e.g. 1 person per 4m²) – in fact all Tabcorp's TAB agencies can safely accommodate over ten persons. Together with the usual behaviour of TAB Agency customers, who do not socially gather or wish to engage with other customers in agencies, means that safe social distancing almost always occurs. Further, TAB Agencies have separated and secured areas for venue staff away from public space areas.

Should it become known that a person who tests positive with COVID-19 visited at TAB Agency, contact tracing by health authorities would be assisted by the strict requirements of Anti-Money Laundering and Counter-Terrorism Financing laws and the supervision requirements for responsible gambling in retail venues, including daily customer logs (see Appendix Five: Contact Tracing Daily Customer Logs) and CCTV.

For a complete list and capacity of TAB Agencies, please see Appendix Four: TAB Agencies & Updated Capacity.

Tabcorp has always been a responsible contributor

Tabcorp has a proud Australian history dating back to 1881 – collaboratively working with governments and partnering with the community, particularly in times of need. We have always made significant contributions to natural disaster recovery efforts including the Australian drought, floods and cyclones, and recently more than \$1.9m was donated to the 2019/2020 bushfire recovery effort.

Tabcorp's products are distributed through 9,000 retail venues across Australia and are heavily reliant on cash-based revenues. For example, over [REDACTED] of our wagering sales are via retail channels (e.g. pubs, clubs and agencies) and [REDACTED] of lottery ticket sales are via retail channels (e.g. newsagents).

Tabcorp operates the lotteries and totalisator in every Australian state and territory except Western Australia, and through its subsidiary brands (e.g. Powerball, Oz Lotto, TAB, Sky Racing, Keno, MAX) makes an economic contribution of \$4.5 billion per year – this includes around 5,000 direct jobs, \$2.2 billion in taxes, \$1 billion in support to the racing industry and \$800 million in commissions to local newsagencies, pubs and clubs. In addition to this, Tabcorp's products support over 500,000 indirect jobs across Australia.
