The CanMEDS 2015 Physician Competency Framework

ACT Health uses the CanMEDS 2015 Physician Competency Framework as its framework of assessment of clinical competency for the granting, and also the routine and extraordinary review, of clinical privileges and a scope of clinical practice for all doctors and dentists working in an ACT Health facility.

The CanMEDS cloverleaf illustrates the elements and interconnections of the seven CanMEDS roles embodied by competent clinicians, including: Medical Expert, the central role; Communicator; Collaborator; Health Advocate; Manager; Scholar; and Professional.

The items comprising this Reference Report include the CanMEDS Key Competency statements for the seven CanMEDS roles.

► Refer to the instructions on completing this Reference Report overleaf. The CanMEDS Framework is available at www.royalcollege.ca/rcsite/documents/canmeds/canmeds-full-framework-e.pdf
